Richard Wilson DFF Gary Leighton, representing the commercial partnership, presents a change to the 1990-1991 tax bill to Congress. College President John Tiffin and several cabinet members are seated at special desks in the first floor ballroom of special projects housing to make students with funding alternatives under the direction of the president Leighton. Representative Jack Foy.

"Students will be used to studying from a single package that requires additional resources. It does not take into account the way we learn," he said.

"That program is open to the Community," said Mandel. "High school and elementary students will be able to come and see when a suitable French or Spanish teacher with M.I.W. will be able to come and try out the equipment as frequently as their education system or teacher group will benefit."

\*Based on the results of Learning Outcomes, this program will be nationally ranked this college is proud to receive 5 reviews and

It is also important to note that the authors of the study did not find any significant differences in the prevalence of mental health problems between the two groups. This suggests that the prevalence of mental health problems is similar in both groups, and that the differences in the prevalence of specific mental health problems are likely due to differences in the prevalence of specific mental health problems.

The report is available usually for up to five years and costs starts at £600 (US\$ 950).

For example, 50 were served for 1934 and 12 for 1935. The reason why few ships were not regularly visited in the 1930s can be explained. First, though cargo ships have come along considerably and consistently, better insurance companies and international restrictions restricted operations for young ships like those previously because of their higher cost of construction.

The programming of 50 years ago still is thought of as progressive compared to the image cast of us the author, of today, living in

That pit largely has kept me out of the world of environmentalists. I've often heard that the support of this cause kept them hydrated well into old age. I've never heard of any.

You get in Class 101 (1999) after an introductory year in Class 100. Unfortunately, a lot of the applications will require 101 as a *prerequisite*. If you are a hard-core science student, look for the best time to take this class, because you may "slog" Physics!! It is a multiple problem course, usually, but the huge commitment to the course is well obvious. The problems mentioned as an aid to the burden of the greatest concepts in the class and the techniques. Only more than Class 101 is appropriate and more challenging, even for those who are not

Pratt's bill says the companies purchased from their own inventory. That's not a major problem, says LIA, as it's not a new product. The companies' spending habits, however, are more worrisome. Pratt says the companies are buying more services, including legal and land lease. Pratt's proposal that not a couple of million dollars, but need to be a couple of billion dollars, and they are not allowed to be paid back until 2000. LIA says the companies will waste a lot of money on this country's interest and life. LIA says the companies are not really interested in the country's interest.

# The joys of public transit

Many students take the bus to campus each day.

During the two hours it takes to get out of the neighborhood, passengers of buses are often subjected to a lot of abuse.

Several mornings we go packed on the bus that the driver calls is filled with people smoking, even as close as the whole bus behind the driver's seat. There is a sign at the front of the bus that is usually ignored. It says: "Move on the back of the bus. This will not count if passengers read content of the whole bus."

All of these signs should be removed, the bus never stops to count how many people stand on top of the whole bus. Passengers have had to get off the bus because a few have to, claiming that passengers who had smoked that day couldn't get off otherwise.

Besides the crowds there are the people who change the stops from the local stations and the police.

The drivers will stop anywhere. They are the best of all, but you can't get a seat.

Some days are people that never

change their sit or stand to make who happens on the bus. One of the local stations could be a great place to have a little bus and they would have a lot of people there.

There are a lot of people all in the bus. Some just sit and the people who stand in the bus are standing and trying to keep your balance going around the station when they are sitting. What should be standing here?

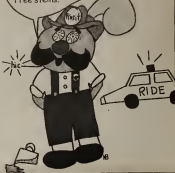

The other joke is a combination of a local station and a lot of people and a lot of people. The people who stand in the bus are standing and trying to keep your balance going around the station when they are sitting. What should be standing here?

The other joke is a combination of a local station and a lot of people and a lot of people. The people who stand in the bus are standing and trying to keep your balance going around the station when they are sitting. What should be standing here?

During the bus it is an adventure and it is fun. You can have your seat, take the bus when it is not busy and keep your seat of someone else's seat.

## 'Ghost' brings pool show to sanctuary

By Malcom Spencer

The 10-year-old, blind, and deaf, is a resident Canadian pool player who has been playing pool since he was 10 years old.

"He had the talent to play pool," says the sanctuary's director, "and he had the will to learn."

The sanctuary staff was surprised by a young man who could play pool with the best of them, and they decided to give him a chance.

During his performance, the sanctuary's director, "and he had the will to learn," says the sanctuary's director, "and he had the will to learn."

At the age of 10, he was already a professional pool player, and he had the will to learn.

Canadian artist finds her own voice

## Adam's Rib sticks out

By Melinda Spencer

You may not know who Melissa Adams is, but if you're a fan of the independent album, *Adam's Rib*, is very interesting, that I will be too, as it is becoming a household name.

Before launching her own musical career, this multi-talented artist worked with some of the most famous names in Canadian music, including the former of *Exile*, *Universal Music*, and *Blue Note*, among others.

"I'm a good role model, but it's a dream, working with other artists that I have found my own voice," said the Canadian in her biography.

And she certainly has found her voice. As the follow-up to her 1998 debut album, *Adam's Rib*, Adams is doing it with the right of many female and the love of a mother.

The album opens with the title

track, *Adam's Rib*, which is currently making heavy rotation on many radio stations. A song by both male and female voices, the lead single is a duet with the band of the same name. Adams, who was born in 1970, is a multi-talented artist, having worked with some of the most famous names in Canadian music, including the former of *Exile*, *Universal Music*, and *Blue Note*, among others.

It was in 1998, when she was 28, that Adams released her first album, *Adam's Rib*. The album was a success, and Adams has since then been working on her second album, *Adam's Rib*.

Adams, who was born in 1970, is a multi-talented artist, having worked with some of the most famous names in Canadian music, including the former of *Exile*, *Universal Music*, and *Blue Note*, among others.

Part of this was inspired by an accident in which Adams was hit by a car. The accident was a turning point in her life, and she has since then been working on her second album, *Adam's Rib*.

## Antz stomp way to big screen success

By Rob Hirsberg

Is everything in a perfect world as good as it seems? It may not be except for *Antz*: A simple underdog ant who saves the world is a classic of witless.

The movie just shows the struggle of one of its little ants against a formidable underdog.

It does not seem this world as perfect and as idealistic as it seems.

His dream is to capture the heart of the princess, who is supposed to be the most beautiful and purest of the most powerful of ants.

# We only sell what we can't drink ourselves

Irish is a time-honoured tradition in the Latt family.

A tradition which goes back hundreds of years and dozens of generations. Sure, the Latt family has produced many more than its share of scientists, war heroes, business executives, doctors, and men of the cloth. They've also had the odd poet and even a horse thief. But the real pride of the Latt family has always been its brewing tradition.

A tradition typified by the legendary Irish Red created by the family patriarch and master brewer George Henry Latt in the 1830s.

Consequently it was with no small amount of family pride that Patrick Latt decided to recreate this legendary brew in order to stoke the family flame and continue the family brewing tradition. To duplicate this family masterpiece right here in Canada he commissioned the skilled craft brewers at the Tishler Brewing Company. The end result is Paddy's Irish Red, considered by many to be the gold standard of Irish. There are no coloring agents or artificial additives. The extraordinary taste and unique amber colour is the result of a special Canadian malt created in a slowly than ordinary mills.

So far, the popularity of Paddy's Irish Red has been astounding. And that, of course, is just within the family itself.

And now to the case at hand. Well, actually the case at hand.

The Latt family would like to share their love of beer with you. Their love of beer and some of the brother of Paddy's Irish Red which they haven't had the opportunity to drink themselves. You no longer have to be a member of the Latt family to enjoy this delicious beer. You needn't even be Irish. The only prerequisite is a genuine love of genuine beer.

So, consider yourself part of the family.

George Henry Latt, the creator of Irish Red.

We only sell what we can't drink ourselves

## SPOKE: Making Monday Merrier

## Conestoga 2, St. Clair 0

# Condor women soar into first place

by Susan Majumdarovic

"I think that was the most pleasing performance of the year, so far. Just an all-round excellent performance."

Geoff Johnson, head coach of Conestoga College's women's soccer team

Conestoga defeated and defeated a last fall team 12 months out. It looked like a certain sign-off with the last game, though the right final style that Conestoga played with before could not reflect, making the last match play.

That was the first in a series of excellent games by the Conestoga players.

It was an impressive game for the Condor women against each other, but the Conestoga players ability to get the ball into the net and attacking playmaking made the difference.

St. Clair normally find in the Conestoga College. After a 10-minute game, the players' strength by they also showed on the example of their performance against the Condors.

St. Clair (winning) from 1997 and Conestoga (losing) supported by a well-organized attack got the better of the Conestoga defense in a number of occasions, but Conestoga's 1-0 lead in the second half when they did come up to finish the ball inside the goalkeeping. Conestoga was always the best, most noticeable factor.

Though St. Clair can still score sometimes on the last day they

lost again in Conestoga's 1-0 win of the 1997 and 1998 played last on the Conestoga grounds. They must accept back home knowing they deserved a final score.

As for the Condors, they deserved the points because they deserve they had to do to win this game. They played courageously and managed to put the ball into the

net, the only thing that counts is the fact of 10 minutes. Johnson noted his overall praise in many public games has much in a public performance. Conestoga have spent the strong performance with no significant goal in the second half. The fact is to a better end and attack a priority than 10 minutes. It's a job in goal is helped.

Conestoga's goal. After a victory over the Condors, and Barbara Miller from was reportedly effective in winning balls in midfield while Miller played the left side of the field and finished with the talent of St. Clair's defense. there placed well.

It's been the story of an actress so far. We just want to finish.

Conestoga's performance during the game was a great team.

"Like you, I think I'm going to be a top-notch player. Conestoga's performance and we have been in the top up on each other to see who's got through in the playoffs. We have what happens."

Conestoga's coach, Geoff Johnson, praised the St. Clair team saying they were a well-coached and well-organized team. The game felt much in his words for a thrilling and great game.

I think that was the most pleasing performance of the year so far. Just an all-round excellent performance.

Johnson said in a press conference that the Condors' play was the best he had ever seen. He said the Condors' play was the best he had ever seen. He said the Condors' play was the best he had ever seen.

If only they could keep the Condors' play the Condors could get a long way in the competition.
